## **A4A Meteorology Committee**

**Steve Abelman**

Member, A4A Met Committee

Contract Weather Support - American Airlines

Dec 14, 2022

# Airlines for America (A4A) Overview

*A4A advocates on behalf of its members to shape policies and measures that promote a safe, secure and healthy U.S. airline industry. We work collaboratively with airlines, labor, Congress, the Administration and other groups to improve aviation for the traveling and shipping public.*

*The **A4A Meteorology Committee** is a standing committee directed to address issues relating to meteorological effects on airline flight operations, air traffic management and NAS modernization.*

# Our priority is to build and sustain a collaborative relationship with the NWS and FAA

- Improve standardization, verification, reliability, and consistency of TAFs
- Improve the quality and capability of airport weather observations
- Modernize MET information delivery systems and ATM integration
- Promote effective and timely transition of aviation weather research to operations
- Reduce injuries associated with turbulence, especially to Flight Attendants
