14. STATEMENT OF REQUIREMENT, PROBLEM, OR DEFICIENCY OF EXISTING SYSTEM  
Aviation Services Branch, NWS, identified the need for the U.S. METAR, SPECI and TAF collective products -- SA/SP/FTUS80 KWBC -- to be made available to WMO Regional Association IV (RA-IV). The individual products in these collectives conform to the WMO message format, but contain information which is not permitted under the more restrictive ICAO message format, which in turn precludes dissemination via the FAA's WAFS Internet File Service (WIFS). The most recent list of constituent products for each product collective at the time of this RC's issuance, is appended as an Addendum to this RC.

15. KNOWN OR PROPOSED SOLUTION  
ADD the SA/SP/FTUS80 KWBC products to the NWS International Services and Communication System's (ISCS) GTS Internet File Service (GIFS) access by RA-IV Member States.
