### PART A - COVER SHEET

This form is in three parts. Submitters must complete unshaded blocks in Part A, and as much of Part B and C as possible. If there is no specific required change date, enter 60 days from date submitted. Address questions to NWS Change Management at (301) 713-1373. Submit change requests to the NWSRC mailbox (External: NWSRC@noaa.gov).

14. STATEMENT OF REQUIREMENT, PROBLEM, OR DEFICIENCY OF EXISTING SYSTEM

The NWS Dissemination Systems Team (DST), W/DISS, Quality Assurance (QA) review of the products listed in the AWDS.tbl file revealed 3,364 products that were absent from the TG Line 009 EMWIN baseline. Further examination of these excess products revealed many of the products' associated AWIPS IDs matched those in the CATLST.txt file, and therefor did not need to be listed in the AWDS.tbl. A much lesser number of files were identified as outdated, could not be associated with a valid AWIPS ID, and/or were not identified in the TG raw file (historical) listing. Of the 3,364 products, 3,338 were categorized as invalid/inactive products. The remaining products were determined to be valid and active and should be added to the EMWIN baseline with their AWIPS IDs( where appropriate).

15. KNOWN OR PROPOSED SOLUTION

Implement the modifications to ADD the valid and active products described in Part A, Data Products Supplement, to the EMWIN TG Line 009 baseline.

Delete the 3,343 products as described in Appendix A from the AWDS.tbl file.
