

February 2021 Climate Summary

February was overall drier than average. A series of storm systems brought much needed rain and mountain snow during the middle of the month. These systems favored eastern Arizona with less precipitation across Coconino and Yavapai counties.

	Average Temperature	Departure from Normal	Precip	% of Normal Precip
FLAGSTAFF	32.3°	0.2°	0.73''	34%
PRESCOTT	41.4°	-0.2°	0.25''	18%
WINSLOW	41.1°	0.8°	0.16''	35%

Temperatures were very close to average for the month.
