NWS FORM E-5 U.S. DEPARTMENT OF COMMERCE HYDROLOGIC SERVICE AREA:

NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION

NATIONAL WEATHER SERVICE SAN JOAQUIN VALLEY - HANFORD , CA

REPORT FOR:

MONTHLY REPORT OF RIVER AND FLOOD CONDITIONS

FLOOD CONDITIONS MONTH: SEPTEMBER YEAR: 2006

TO: Hydrometeorological Information Center, W/OH12x1 SIGNATURE:
National Weather Service/Office of Hydrology

1325 East-West Highway #7116 Kevin Durfee

Silver Spring, MD 20910 (In Charge of Hydrologic Service Area)

DATE: October 3, 2006

When no flooding occurs, include miscellaneous river conditions, such as significant rises, record low stages, ice conditions, snow cover, droughts and hydrologic products issued (WSOM E-41).

+---+

 \mid X \mid An X inside this box indicates that no flooding occurred for the month +---+ within this hydrologic service area.

Despite unseasonably cool weather on the 15th and 16th, temperatures averaged pretty close to normal for the month. A ridge of high pressure aloft dominated the pattern during the first couple of weeks. Afterward, a series of weak upper level troughs moved into the Pacific Northwest, tracked into the Great Basin, and provided a dry northwest flow aloft across the HSA. Otherwise, dry weather prevailed through the end of the month.

NO HYDROLOGIC PRODUCTS WERE ISSUED THIS MONTH.
