

Flood Event of 3/31/1974 - 3/31/1974

Potomac

Site	Flood Stage	Date	Crest	Flow	Category	Basin	Stream	County of Gage	County of Forecast Point
Frederick	15.00	3/31/1974	15.55	16,400	Minor	Potomac	Monocacy River at Jug Bridge	Frederick	Frederick

Weather Summary

On March 30th to March 31st in 1974, two disturbances combined and brought large amounts of rainfall to cities across the Northeast. A low pressure system moving east from the Great Lakes and a low pressure system moving northwest from the Atlantic Ocean formed together over the Northeast. In Fredrick, Maryland, rainfall amounts over these two days amounted to over 3", leading to minor flooding. Provided by Josh Markel – The Pennsylvania State University
