Berne	12.00	2/2/1981	13.79	-9,999	Minor	Schuylkill	Schuylkill River	Berks	Berks

---

## Weather Summary

---

An occluding low pressure system over southern Canada and its associated fronts brought heavy rain and snow showers to much of the eastern United States in Early February. The triple point of this system passed through eastern PA and southern NY, where upwards of 2.00 of rain fell. This rain caused minor flooding on the Delaware and Schuylkill Rivers.
