Blackwells Mills	9.00	7/15/1987	9.40	3,870	Minor	Raritan	Millstone River	Somerset	Somerset

Weather Summary

A strong cold front brought a line of severe thunderstorms to the region on the 14th of July. The strong storms brought damaging winds, tornadoes and torrential downpours to New Jersey. Rainfall totals of above 1.00 inch were reported in the area, with higher amounts likely falling in regions directly impacted by the stronger thunderstorms. This rapid accumulation of rain resulted in minor flooding at two points in New Jersey.
