Langhorne	9.00	6/17/2001	16.87	22,600	Major	Neshaminy	Neshaminy Creek	Bucks	Bucks

Weather Summary

Tropical Storm Allison made landfall southwest of Galveston, TX near Freeport, TX on the 5th. Allison dumped upwards of a foot of rain in several locations in the Southeast as it meandered across the region for over a week. The remnants of Allison finally drifted northeastward into the Mid-Atlantic on the 17th before temporarily restrengthening to a subtropical storm just off of the Mid-Atlantic coast. Allison then became absorbed by an approaching cold front and accelerated out of the area. Over 2.00 inches of rain across much of New Jersey and eastern Pennsylvania on the 16th and 17th. Locally heavier rains such as the approximately 3.00 inches that fell in Philadelphia and Trenton which led to major flooding in the nearby Neshaminy Creek and minor flooding on the Assunpink Creek.

Crest Statistics and Flood Information

First flood of 2 that occurred in Jun, 2001

Fourth flood of 7 that occurred in 2001
