## Flood Event of 6/7/2002 - 6/7/2002

## **North Branch Susquehanna**

Site	Flood Stage	Date	Crest	Flow	Category	Basin	Stream	County of Gage	County of Forecast Point
Conklin	11.00	6/7/2002	11.12	20,300	Minor	North Branch Susquehanna	North Branch Susquehanna River	Broome	Broome

## **Weather Summary**

A warm front produced scattered showers and thunderstorms with rainfall amounts up to 2 inches. Scattered showers/thunderstorms fired up over the next couple of days as a slow moving cold front moved southeast across the region. The cold front produced over 4 inches of rain in Chenango County, NY, over 3 inches in Cortland County, NY and in Centre and Cameron Counties of PA. The Susquehanna River Basin had the highest areal coverage of the heavier rains which led to the flooding at Conklin, NY.
