

# Flood Event of 7/22/2006 - 7/22/2006

## Southeastern Pennsylvania

Site	Flood Stage	Date	Crest	Flow	Category	Basin	Stream	County of Gage	County of Forecast Point
Langhorne	9.00	7/22/2006	9.10	6,930	Minor	Neshaminy	Neshaminy Creek	Bucks	Bucks

## Weather Summary

On July 21, a slow moving cold front containing a string of weak low pressure centers along its boundary moved into Pennsylvania where the northernmost low began to strengthen. From this system, several lines of slow-moving thunderstorms marched their way across Pennsylvania and New York. Flooding along the Neshaminy Creek occurred due to training thunderstorms which brought between 2.5 and 3 inches to the rather small basin over July 21st and 22nd.
