

## April 6<sup>th</sup> 2025 Central Gulf Coast Excessive Rainfall

Select Rainfall Observations at greater than one inch researched by The National Weather Service Mobile/Pensacola. Amounts listed are in inches and from highest to lowest. Observations come from NWS COOP Observers, Community Collaborative Rain Hail and Snow ([CoCoRaHS](#)) Networks (24hr amounts ending at 7AM Monday April 7<sup>th</sup>), and Mesonet (24hr amounts ending at Midnight Monday April 7<sup>th</sup>) including USA ([University of South Alabama Mesonet](#)), [RAW's](#) (Remote Automated Weather Stations) and others. Rainfall data is considered preliminary and is provided for informational purposes only. Updates likely as new information becomes available.

| Network  | Station Number        | Station Name                           | State | County   | Gauge Catch |
