Service Change Notice 19-72 Updated
National Weather Service Headquarters Silver Spring MD
355 PM EST Tue Nov 26 2019

To: Subscribers:
 -NOAA Weather Wire Service
 -Emergency Managers Weather Information Network
 -NOAAPort
 Other NWS Partners, Users and Employees

From: Darren Wright, Acting Chief
 Marine, Tropical and Tsunami Services Branch

Subject: Updated: Marine Forecasts Website will be Redirected on or
around December 31, 2019

Updated redirect dates.

Effective on or around December 31, 2019, the NWS will redirect users of the current NWS Marine Forecasts website (<https://www.nws.noaa.gov/om/marine/home.htm>) to the new NWS Marine Weather Services website (<https://www.weather.gov/marine/>). All of the subpages of the current NWS Marine Forecasts website will be redirected to the appropriate subpage of the new NWS Marine Weather Services website until the NWS Marine Forecasts website server is shut down on January 28, 2020.

For example, the web address for Coastal/Great Lakes Forecasts by Zone section of the current website:

<https://www.nws.noaa.gov/om/marine/zone/usamz.htm>

will be redirected to:

<https://www.weather.gov/marine/usamz>

which has all the same information and links of the current website. Users should update their bookmarks.

All of the forecasts, warnings, observations, radiofax charts and other information about NWS marine services from the current Marine Forecasts website will be located on the NWS Marine Weather Services website. The information has been reorganized and streamlined with a new display. The site should be much easier to navigate.

To view the homepage and access all of the links and subpages of the new NWS Marine Weather Services website, go to:

<https://www.weather.gov/marine/>

Please email: marine.weather@noaa.gov with any comments or questions.
