Subject: Soliciting Comments on Proposed Termination of Terminal
Aerodrome Forecast (TAF) at Talladega Municipal Airport, Talladega AL
(KASN) through May 3, 2025

NWS is proposing the termination of the TAF at Talladega, AL due to overall decreased traffic outside of a few seasonal high traffic events. Seasonal TAF service will be provided as appropriate to support high air traffic events in the Talladega area. For any scheduled high air traffic event, a Public Information Statement (PNS) that provides the effective TAF dates will be issued by WFO Birmingham at least one month prior to each event. The proposed termination date for KASN TAF is on or before September 5, 2025 with only seasonal TAF service provided after that date.

Table 1. Operational NWS Product Affected by This Change:

Airport Name	WMO Heading	AWIPS ID
-----	-----	-----
Talladega Municipal Airport	FTUS44 KBMX	TAFASN
