Subject: The Experimental Hawaiian Extended Range Forecast Webpage Will Transition to Operational Status on March 12, 2025

On March 12, 2025, the National Centers for Environmental Prediction (NCEP) Climate Prediction Center (CPC) will transition the Hawaiian Extended Range Forecast Webpage to operational status.

The Hawaiian Extended Range Forecast Webpage builds on and provides more localized information related to the official 6-10 Day and 8-14 Day temperature and precipitation outlooks. This webpage provides an expanded suite of forecast graphics, while adding station-specific information containing probabilistic and deterministic forecast information.

The official 6-10 Day and 8-14 Day temperature and precipitation outlooks, respectively, may be found here:

<https://www.cpc.ncep.noaa.gov/products/predictions/610day/>

<https://www.cpc.ncep.noaa.gov/products/predictions/814day/>

The product can be accessed at the following URLs, for the 6-10 Day and 8-14 Day forecast periods, respectively:

https://www.cpc.ncep.noaa.gov/products/predictions/short_range/Hawaiian Outlook.d192.php

https://www.cpc.ncep.noaa.gov/products/predictions/short_range/Hawaiian Outlook.d264.php

The URLs for the experimental product will be discontinued:

https://www.cpc.ncep.noaa.gov/products/predictions/short_range/Hawaiian Outlook.d192_experimental.php

https://www.cpc.ncep.noaa.gov/products/predictions/short_range/Hawaiian Outlook.d264_experimental.php

A description of the product, its scientific basis, and examples can be found at the following link:

https://nsdesk.servicenowservices.com/api/g_noa/nwspc/res2/9f7951ab87535e904b0fa8a60cbb35da
