From: Robert Bunge
 Chief, Telecommunication Software Branch
 Telecommunication Operations Center
 Office of Operational Systems

Subject: NWS Telecommunications Gateway (NWSSTG) Outage Scheduled for June 7, 2011

To support the update of critical NWSSTG hardware, a 60- to 75-minute outage of services will be experienced starting about 1230 Coordinated Universal Time (UTC) on June 7 2011. This outage will be delayed if critical weather is forecast.

Impacted services will include Family of Services, socket services, other services to partners, as well as public internet and file transfer protocol servers with the uniform resource locators of:

<http://weather.noaa.gov>
<ftp://tgftp.nws.noaa.gov>

During the outage, these services will become unavailable or have delayed delivery of NWS products.

For questions regarding this outage, please contact:

Robert Bunge
Chief, Telecommunication Software Branch
Telecommunication Operations Center
