From: David Novak
 Director, Weather Prediction Center

Subject: Amended: Solicitation of Comments on the Experimental Day 4-7
Winter Weather Outlook through March 31, 2017

Amended to extend the comment period through March 31, 2017.

The National Centers for Environmental Prediction (NCEP) Weather Prediction Center (WPC) is soliciting comments on the Experimental Day 4-7 Web-based Winter Weather Outlook for the 2016-17 winter season. The experimental WPC Day 4-7 Web-based Winter Weather Outlook is a graphical forecast depicting the probability of winter precipitation (snow/sleet) exceeding 0.25 inches (~6 mm) water equivalent over a 24-hour period (1200 Coordinated Universal Time (UTC) - 1200 UTC). The product is comprised of four separate graphics showing the forecast for Day 4, Day 5, Day 6 and Day 7. The product is prepared twice daily by 0900 UTC and 1930 UTC.

Graphical representations of the products are online at:

http://www.wpc.ncep.noaa.gov/wwd/pwpf_d47/pwpf_medr.php

The online survey listed on the WPC web page can be found at:

www.nws.noaa.gov/survey/nws-survey.php?code=D47WWO

This product is in the new and enhanced products/services catalog at the following link:

<http://products.weather.gov/viewExperimental.php?selrow=564>

Comments regarding the Experimental WPC Day 4-7 Web-based Winter Weather Outlook should be sent to:
