Subject: The Great Lakes Storm Summary (GLS) and Marine Alert Message
(MAW) Will No Longer be Issued: Effective February 1, 2011

Refer To: Public Information Statement below:

https://www.weather.gov/media/notification/pdfs/pns10cleveland_greatlakes.pdf

Effective Tuesday February 1, 2011, at 1600 Coordinated Universal Time (UTC) or 1100 am Eastern Standard Time (EST), the NWS Weather Forecast Office in Cleveland will no longer issue the GLS and MAW. NWS received no comments on this proposed change during its comment period that began July 26, 2010, and ended September 10, 2010. The Marine Weather Message (MWW) has superseded the requirement for the GLS and MAW. The MWW, MAW and GLS are all event driven, non-scheduled, products.

Table 1 below lists the communication identifiers for the Great Lakes Storm Summary and Marine Alert Message which will be terminated February 1, 2011.

Table 1: Products to be Terminated February 1, 2011

-----	-----	-----	-----
Cleveland, OH	Great Lakes Storm Summary	WWUS81 KCLE	GLSCLE

Users should delete the World Meteorological Organization (WMO) and Advanced Weather Interactive Processing System (AWIPS) headings listed in Table 1 above from their databases on or soon after February 1, 2011, as products will no longer be issued under these headings. Users should access the MWW for equivalent data.
