From: Kevin Schrab
 Chief, Observing Services Division
 Office of Climate, Water and Weather Services

Subject: Discontinue the Supplementary Data Observation (SDO) and
Supplementary Climate Data (SCD) products: Effective March 3, 2012

Effective March 3, 2012, at approximately 1500 Coordinated Universal Time (UTC), the NWS will discontinue the distribution of the SDO and SCD products. The discontinuation of the SDO/SCD products is a result of a two-year evaluation of the usefulness of these products to distribute climate data. NWS received very few requests for these products and did not have a set of consistent users. The NWS distributes the same information through other products, already familiar to the public, such as Preliminary Climate Data (F-6), Daily Climate Report (CLI), Monthly Weather Summary (CLM), RR3 local products, Temperature and Precipitation Table (RTP), etc.

For questions on discontinuance of these products, contact:

Kevin Schrab
Observing Services Division Chief
Silver Spring, MD
kevin.schrab@noaa.gov

For technical questions regarding these products, contact:

Sergio M. A. Marsh
Surface and Upper Air Programs Manager
Silver Spring, MD
sergio.marsh@noaa.gov
