              -NOAAPort  
              Other NWS Partners, Users and Employees

From:         Mark Tew  
              Chief, Marine and Coastal Weather Services Branch

Subject: Removal of Experimental Southeastern U.S./Gulf of Mexico Marine  
Weather Portal on November 30, 2012

Effective Friday, November 30, 2012, NWS will discontinue the experimental  
Southeastern United States/Gulf of Mexico Marine Weather Portal. This  
portal currently is online at:

<http://forecast.weather.gov/mwp/>

The portal has been operating in a degraded status since contract support  
for the site ended last year. In addition, the operating platform and  
data layers are outdated and thus are no longer reliable.

Please send comments to:

David Soroka  
NWS Marine Program Manager  
Marine and Coastal Weather Services Branch
