 -Emergency Managers Weather Information Network
 -NOAAPort
 Other NWS Partners, Users and Employees

From: Craig Hodan
 Chief, NWS Dissemination Systems Branch

Subject: NOAA Weather Wire Service to Switch to NWS Enterprise
Architecture Solution (NWWS-2) by March 2015

The NOAA Weather Wire Service (NWWS) will offer the NWWS-2 experimental product by March 2015. Dual operations (legacy and NWWS-2) will continue until the May 31, 2015, to accommodate partner transitions.

C-band satellite users can continue to use the outdoor antennas they have in place, which will not require re-pointing but will require a new satellite receiver, new Low Noise Block Converter (LNB), and new or modified weather data processing/display software.

Satellite Broadcast Network (SBN)/NOAAPort Channels 101-105: AVAILABLE
All NWS products include NWWS products: no change

SBN/NOAAPort Channel 201: AVAILABLE
NWWS products only: experimental

NWWS-2 Open Interface over the Internet will be available to partners by March 2015 for the transitional period before the lease end. A notice will be posted on the NWWS webpage.

For the latest news and supplemental information about this change, and various methods to receive alerts and warnings please consult the NWWS webpage at:
