To: Subscribers:

-NOAA Weather Wire Service

-Emergency Managers Weather Information Network

-NOAAPort

Other NWS Partners, Users and Employees

From: Luis Cano

Director, Office of Operational Systems

Subject: Corrected: Termination of the NWS weather.noaa.gov (WNG) Web

Service: Effective June 15, 2016

Corrected to add updated links for radar monitoring web pages as follows:

WNG Current Site Data Link Replacement Link

weather.noaa.gov/monitor/radar3 http://radar3pub.ncep.noaa.gov

weather.noaa.gov/monitor/radar2
http://radar2pub.ncep.noaa.gov

Corrected to change disable date to August 3, 2016.

The NWS will eliminate the web service found at the following address, effective August 3, 2016:

http://weather.noaa.gov

Comments on this change were requested via the following notice:

https://www.weather.gov/media/notification/pdfs/pns16-05decommissioning web.pdf

After addressing all questions, comments and feedback, a decision was made to terminate the service.

This legacy website was launched over a decade ago to provide accessibility to NWS weather products for the general public. The WNG website will be decommissioned as part of the NWSTG Re-Architecture project. The WNG website is obsolete because NWS weather.gov site is now the primary hub for NWS web services and data products. A list of options available for obtaining weather data normally found via the WNG URL is provided below.
