From:         Allison Allen  
              Chief, Marine, Tropical and Tsunami Services Branch

Subject: Discontinuing the Experimental Spanish Language Hurricane Local Statement issued by the National Weather Service (NWS) Weather Forecast Office (WFO) in Brownsville, TX: Effective April 10, 2017

Effective April 10, 2017, the NWS WFO in Brownsville, TX, will no longer issue the experimental Spanish Language Hurricane Local Statement (HLS). The Spanish version of the HLS was crafted to match a now outdated HLS format and it can no longer be supported. No comments were received on the product during its experimental period as there were no tropical cyclones during the past two hurricane seasons that necessitated issuance of the product.
