Subject: Updated: Changes in Fire and Public Zones for WFO Melbourne, FL:
Effective May 1, 2018

Updated to correct zone names in Table 1.

Effective Tuesday, May 1, 2018, at 200 PM Eastern Daylight Time, 1800 Coordinated Universal Time (UTC), the boundary between the Inland and Coastal Volusia County public and fire weather forecast zones for NWS Weather Forecast Office (WFO) Melbourne (MLB), FL, will be adjusted eastward approximately 9 miles.

The coastal-inland split will shift from the middle of the county to the eastern portion of the country, generally parallel to and approximately three miles west of Interstate 95. This change will better reflect observed coastal and inland weather regimes and is intended to provide increased flexibility and improved accuracy of forecast and various watches, warnings and advisories in the public and fire weather programs.

Table 1 lists WFO MLB's modified public and fire weather forecast zones. Table 2 lists WFO MLB's affected products.
