Subject: Canceled: Modification of AWIPS PILs in WFO Guam's Product
Suite: Effective September 11, 2018

This change is cancelled until further notice. An updated Service Change Notice will be sent if a new decision is made.

Effective September 11, 2018, at 0000 Coordinated Universal Time (UTC), the Weather Forecast Office (WFO) Guam will issue modified products to support Advanced Weather Interactive Processing System (AWIPS) applications. There will be no other changes to these products beyond correcting the AWIPS product inventory lists (PILs) to comply with NWS policy. WFO Guam's AWIPS IDs were determined prior to the modernization of NWS and AWIPS. These headers do not work properly with AWIPS Warngen. In addition, this change will standardize the AWIPS IDs for all WFO Guam products.

The product headers are listed with changed AWIPS PILs:
