

Minutes from CHPS Meeting Thursday March 3, 2011

Attendees:

ABRFC: Eric Jones

CNRFC: Rob Hartman, Pete Fickenscher

NERFC: Rob Shedd

NWRFC: Harold Opitz, Joe Intermill

NOHRSC: John Halquist

Deltares: Edwin Welles

OCWWS HSD: Randy Rieman, Dave Riley

OHD: Pedro Restrepo, Jon Roe, Chris Brunner, Dave Kitzmiller

Pre-reading: Support Log sent to chps_ops on Mar 2 by Dave Riley

Decisions

- Allow CAT-II's to use FogBugZ for issue reporting.
- Usage of chps_ops and/or FogBugz for general technical discussion purposes should be determined by all RFCs at the June CHPS workshop.
- Until further notice, CAT call minutes to be reduced to reflect decisions and actions only. Anyone missing a meeting can ask for summary from another attendee.

Actions

- HSD to provide GoToMeeting for CAT-II FogBugZ training; make use of an existing Tuesday CAT-II call. Use the 1-page write-up recently submitted for review by the CAT.
- HSD to add accounts to FogBugZ for CAT-II RFCs.
- HSD to look into use of discussion groups within FogBugZ (input for CHPS workshop discussion in June).
- HSD will assign issue #446 to HSEB/Lee for inclusion on list for future software releases.
- HSD to send o/s upgrade instructions today to ABRFC, NERFC, and NWRFC.
- HSD to work with NOHRSC today on JMS error.
- NWRFC to remove "November/December" issues from FogBugZ.
- NWRFC and CNRFC to gather bandwidth information for MC-to-MC synchronization via the AWIPS network (part of potential RFC backup strategy).
- Deltares to provide info on how to measure volume between online duty and online standby MC-to-MC.
- HSD to find out from AWIPS (Jim Lane) if REPs will be wiped out during AWIPS o/s upgrade.
- CNRFC to provide different test data to Deltares to better illustrate ADIMC issue.
- Deltares to send Chris a list of bug fixes to be included in April build (JIRA issues).

Next meeting: Thursday March 10, 2011.
