Instructions for Loading the Reference Data

On the rax as user oper do the following:

1. cd /rfc_arc/data/xref-data [enter]

2. run_load-xref [enter]

This will load data into the following tables:

country	wfo_hsa	shefts
state	rfc	shefex
counties	shefpe1	shefprob
huc2	shefpe	shefqc
huc4	shefpetrans	datalimits
huc6	shefdur	modctrl
huc8		

3. Check the error file for any problems... there should not be any.
