<sup>1</sup> Normals are the 30-year NCDC Climatic Normals (1991-2020). Extremes Dec 1892 through 2023. Units are inches.

<sup>2</sup> July 2017, 2013, 1967, 1952, 1933, 1931, 1929, 1926, 1925, 1922, 1914, 1910, 1899, 1896, and 1893 each recorded no rainfall.

<sup>3</sup> August 1988, 1952, 1928, 1919, 1917, 1915, 1914, 1900 and 1894 each recorded no rainfall.

<sup>4</sup> The snow averages are based on weather observations 1893 to 1995, period with full snow observations. These values will be different from the 1991-2020 normals (listed on line labeled 'normal snow', which contained years during which snow was not measured by the ASOS). Snow has not been measured at the Salem observation site since 1995.
