

Interesting Flood Safety Facts:

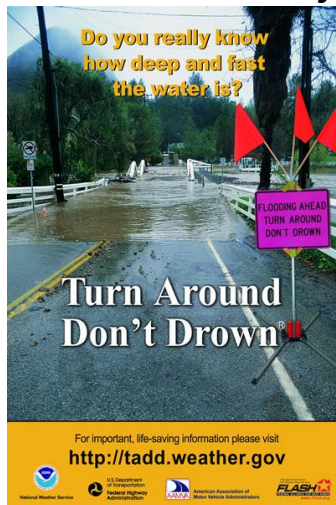

- It only takes 2 feet of moving water to move a car.
- It only takes 6 inches of moving water to knock down a person.
- Flooding can and does occur at any time of day.
- Flash flooding can occur even where there is no stream nearby.
- Road washouts can be impossible to detect under flood waters.

“It’s just a puddle, I can drive through that!”

- *What is the risk worth to you?*
- *Do you really know the condition of the road underneath that “puddle?”*
- *Most floods last an hour or less – are you willing to trade an hour for your (or your family’s) life?*
