

Time to Fall Back - Daylight Saving Time ends at 2 AM this Sunday (November 3rd)

- **Clocks “fall” back one hour at 2 AM this Sunday.**
- **This causes earlier sunrises and earlier sunsets.**
- **Remember to set your clocks back 1 hour before you go to sleep Saturday night!**
- **It’s also a good time to check the batteries in your smoke and carbon monoxide detectors, along with your NOAA Weather Radio.**
