National Weather Service Mobile Decision Support Services (MDSS)

iNWS MOBILE ALERTING

Receive customized text message and e-mail alerts for National Weather Service products that you care about.

Welcome

InteractiveNWS (iNWS) is the home of new mobile and desktop innovations of the National Weather Service. This application suite allows NWS partners to receive National Weather Service products in new and innovative ways, such as text messaging and mobile-enabled webpages. iNWS strives to fulfill our mission of protecting life and property by using technology to reach out to our customers.

Recent News

Note: If you are receiving alerts, but never signed up for them, they may be coming from a new FEMA public system called the Wireless Emergency Alerts (WEA). More information can be found at [Wireless Emergency Alerts Consumer Guide](#)

iNWS is an experimental service intended for NWS core partners: emergency managers, community leaders, other government agencies and the electronic media.

Message & Data rates may apply. For help, text **HELP** to 56149. To cancel your subscription, use this web page or text **STOP** to 56149. You'll receive 25 alerts per month on average. Actual alert numbers may vary and are weather-dependent.

After saving a new phone number, a confirmation code will be sent. You will be prompted to return here and enter the code below.

Confirmation Code:

Terms of Service Summary

By entering your phone number, you acknowledge that you agree to the terms of service and are subscribed until you opt out using this web page or text STOP to iNWS Alert Subscription Service, provided by NWS. I confirm that I hold the account corresponding to the mobile phone number I have entered, or that I have the account holder's permission to use this service. iNWS works with the following carriers: AWCC, AT&T, Boost, Centennial Cellular, Cincinnati Bell, Nextel, Sprint, T-Mobile, Unicef, U.S. Cellular, Virgin Mobile USA, and Verizon Wireless but is not compatible with all handsets. Subscription enables you to receive alerts when the NWS issues a warning impacting one of your iNWS Alert Areas. you will receive 25 messages/month on average, but actual message rates are weather-dependent. Message & Data rates may apply. For help, text 'HELP' to 56149. To cancel, use this web page or text 'STOP' to 56149 at anytime. For customer support, visit inws.wrh.noaa.gov or call 1-888-285-0650.

Adding New Alert Area

Alert Name

TBW County Warning Area

Alert Types

- Severe Weather
- Winter Weather
- Hydrology
- Fire Weather
- Marine Weather
- Coastal Hazards
- Tropical Weather
- Aviation
- Non-precipitation
- Civil Emergency
- Other

Alert Area

Area Type: Point County/Parish Custom Polygon

Edit Polygon Clear Map

The map displays the state of Florida with a green polygon highlighting a specific alert area. The polygon covers the central and western portions of the state, including major cities such as Tampa, St. Petersburg, and Lakeland. Other cities shown on the map include Gainesville, Ocala, Orlando, Melbourne, Palm Bay, Port St. Lucie, West Palm Beach, Coral Springs, Boca Raton, Pompano Beach, and Big Cypress. The word 'FLORIDA' is printed across the center of the state.

Alert Types are Listed in the FAQ tab...

When creating an iNWS alert area, what types of NWS products fall into each product category?

Severe

- Severe Thunderstorm Watches, Warnings, and Statements
- Tornado Watches and Warnings

Winter Weather

- Avalanche Watches, Warnings, and Special Bulletins
- Blizzard Watches and Warnings
- Lake Effect Snow Watches, Warnings, and Advisories
- Wind Chill Watches, Warnings, and Advisories
- Winter Storm Watches and Warnings
- Winter Weather Advisories
- Freezing Rain Advisories
- Ice Storm Warnings

Hydrology

- Flood Statements and Warnings
- Flash Flood Watches, Statements, and Warnings

Marine Weather

- Open Lake Forecasts (GLF)
- Special Marine Warnings and Marine Weather Statements
- Small Craft Advisories
- Gale Watches and Warnings
- Storm Watches and Warnings
- Hurricane Force Wind Watches and Warnings
- Heavy Freezing Spray Watches and Warnings
- Hazardous Seas Watches and Warnings
- Ashfall Warnings
- Nearshore Marine Forecasts (NSH)
- Offshore Water Forecasts (OFF)

Coastal Hazards

- Coastal Flood Watches, Warnings, Advisories, and Statements
- Lakeshore Flood Watches, Warnings, and Advisories
- High Surf Advisories and Warnings
- Rip Current Statements
- Beach Hazard Statements
- Public Tsunami Messages (TSU)
- LSH Products
- TIB Products

Tropical

- Hurricane/Typhoon Local Statements (HLS)
- Tropical Cyclone Forecasts and Advisories (TCM)
- Tropical Cyclone Public Advisories (TCP)
- Hurricane Watches and Warnings
- Tropical Storm Watches and Warnings
- Typhoon Watches and Warnings

Aviation

- Airport Weather Warnings

Non-Precipitation

- Excessive Heat Watches and Warnings
- Freeze Watches and Warnings
- High Wind Watches and Warnings
- Extreme Cold Watches and Warnings
- Dust Storm Warnings
- Hard Freeze Warnings
- Air Stagnation Advisories
- Ashfall Advisories
- Blowing Dust Advisories
- Dense Fog Advisories
- Dense Smoke Advisories
- Freezing Fog Advisories
- Frost Advisories
- Heat Advisories
- Lake Wind Advisories

Civil Emergencies

- Child Abduction Emergencies
- Civil Danger Warnings
- Civil Emergency Messages
- Earthquake Warnings
- Evacuation Immediate
- Fire Warnings
- Hazardous Materials Warnings
- Local Area Emergencies
- Law Enforcement Warnings
- Nuclear Power Plant Warnings
- Radiological Hazard Warnings
- Shelter In Place Warnings
- 911 Telephone Outage Emergencies
- Volcano Warnings

Fire Weather

- Rangeland/Grassland Fire Danger Statements
- Fire Weather Watches
- Red Flag Warnings

Other

- Special Weather Statements

The screenshot shows the NWS Enhanced Data Display v4.6.1 interface. The top navigation bar includes the NOAA logo, the text "NWS Enhanced Data Display v4.6.1", a temperature display of "73°F", a search bar, a location pin icon, a legend icon, and a help icon. The main map area displays a dark gray background with city names and state boundaries. The left sidebar, titled "Quick Layers", lists various data layers with "Off" toggle buttons and icons. The "Background" layer is currently set to "ESRI Dark Gray". The bottom of the interface features a "NWS Chat" button, navigation buttons for "States", "Counties", and "Cities", a "Save/Share" button, and a coordinate display showing "Lat: 35.94553, Lon: -99.14258".

The screenshot displays the NWS Enhanced Data Display v4.6.1 interface. The top navigation bar includes the NWS logo, the title "NWS Enhanced Data Display v4.6.1", a temperature indicator for 70°F, a search bar, and icons for legend and help. The main map area shows a radar overlay over the Gulf of Mexico and Florida, with a yellow advisory box for a Marine Dense Fog Advisory. The left sidebar contains a "Quick Layers" panel with a "Clear All" button and a "Radar" section where the "Radar" toggle is turned "On" and a printer icon is highlighted with a red box. Below the "Radar" section are "Radar Controls" for looping and speed, and a list of other layers like Satellite, Hazards, Tropical, Rivers, Forecast, Observations, Storm Reports, Model Spread, Webcams, Outlooks, and Background. The bottom of the interface features a status bar with "Lat: 28.28356, Lon: -94.67664" and a row of navigation buttons for "NWS Chat", "River Controls", "City Control", "Model Spectrum", "States", "Counties", "Cities", "Save/Share", and "Privacy/PDD/Credits".

New Radar Site

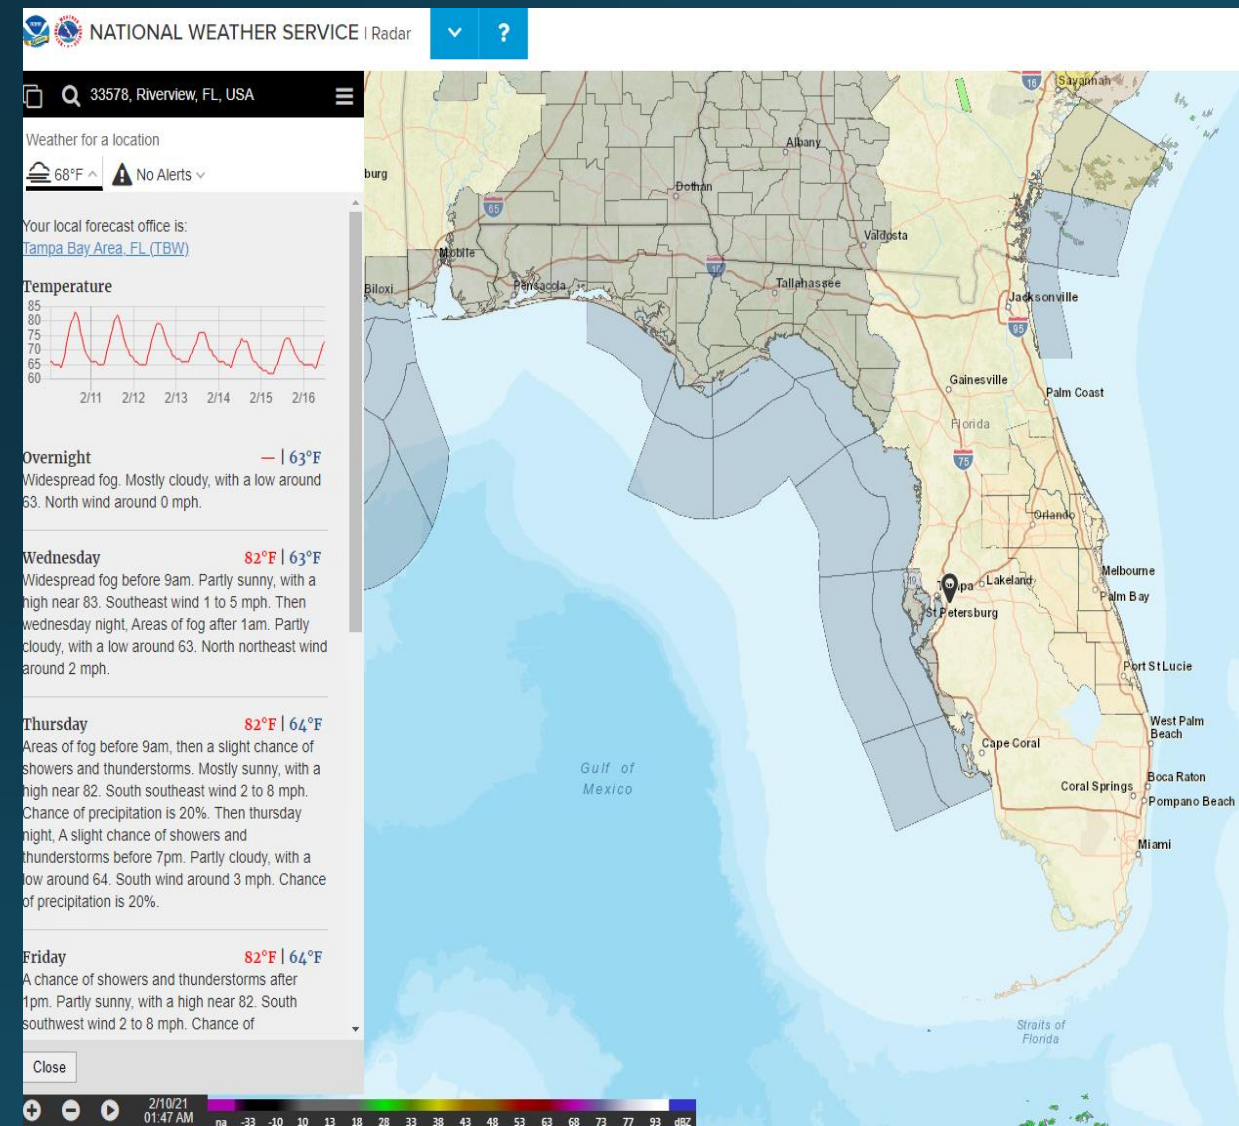

New Radar Site Looking up Location

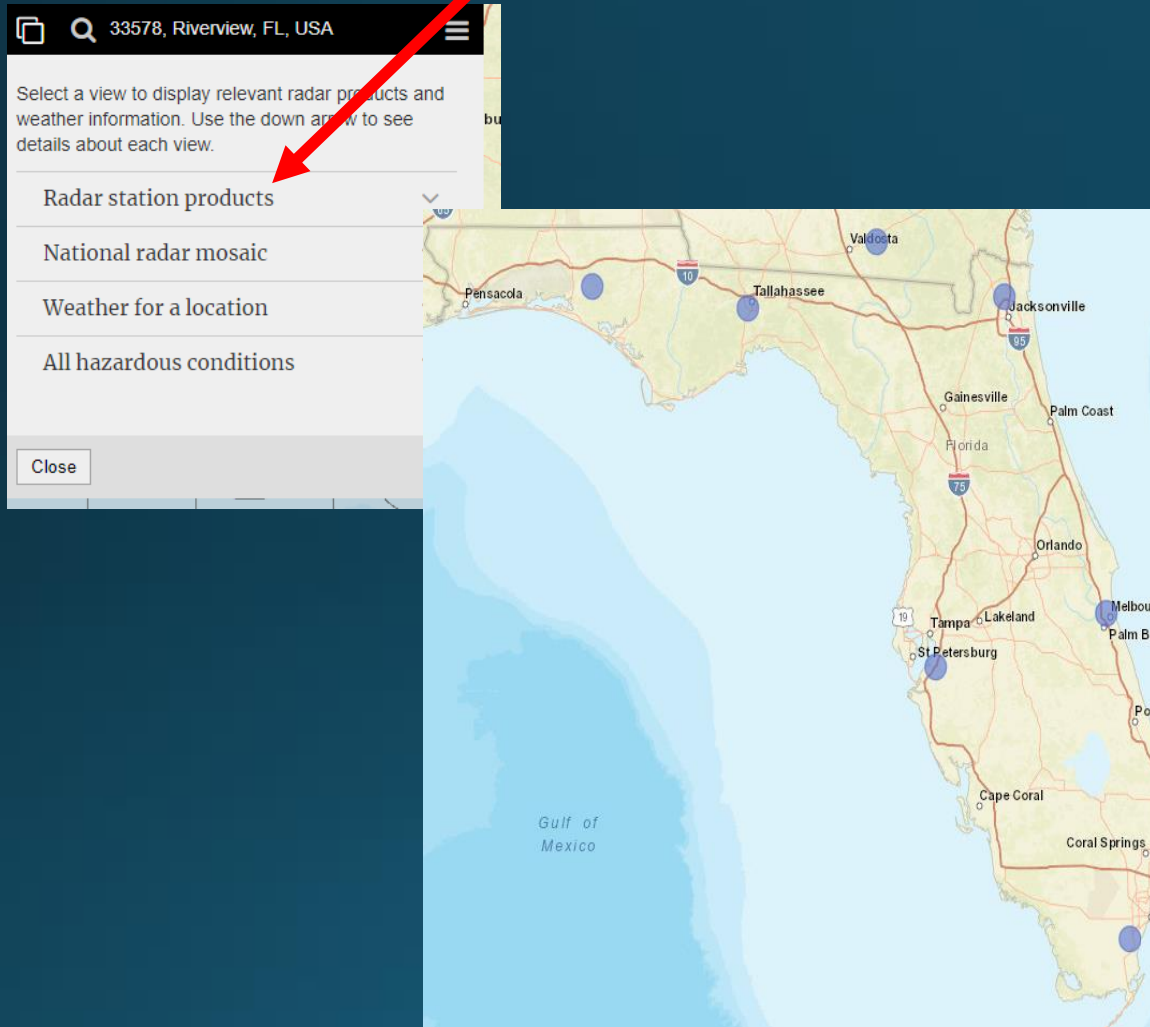

- Click on Location in top left corner and type in city, state or zip code
- You can also simply click on where you want the map to be and zoom in

New Radar Site Looking up Location

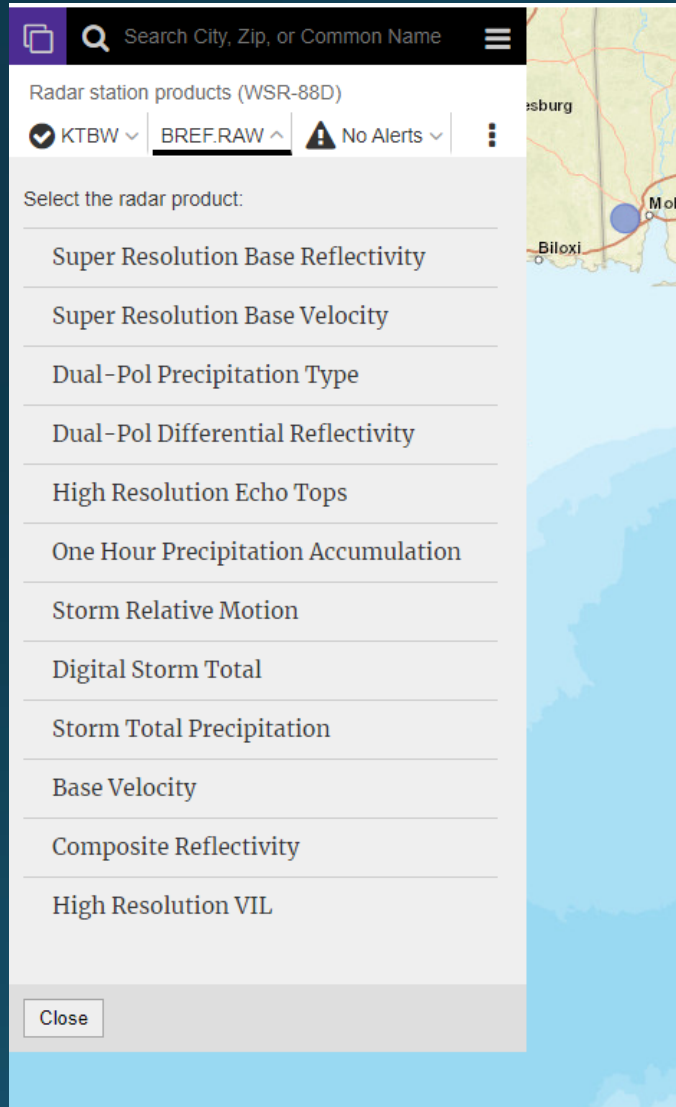

- Once you zoom in it will not only show you radar but show you any watchers or warning
- Also click on the drop down in the top left to get a full forecast

New Radar Site Radar Products

- Default radar is the national mosaic view
- Hit the double pages in the top left to see different radar products
- Then click on Radar Station Products
- Blue dots will appear (which show available radars)
- Click on the radar you want

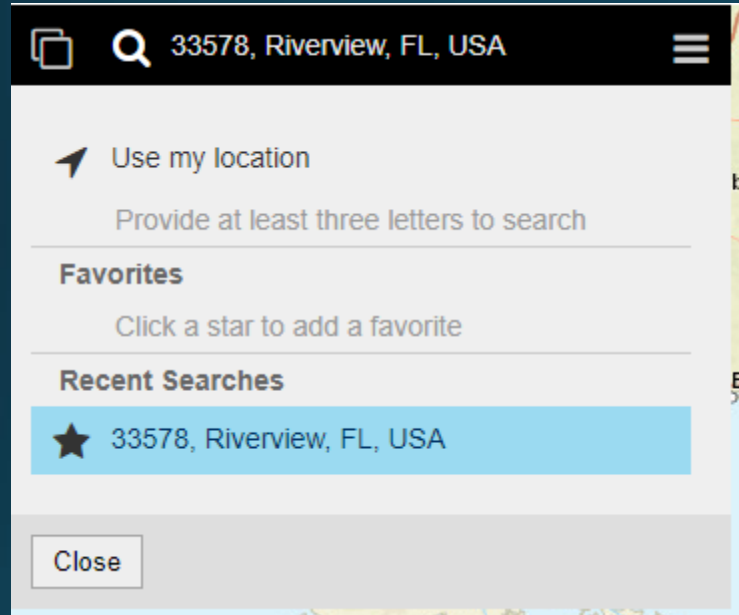

New Radar Site Radar Products

- Clicking on the middle drop down menu to see a list of all the different radar products you can view

New Radar Site

Saving Radar view

- Once again on the drop down menu once you look up a site you can click the star to save that location
- Every time you move or change anytime on the site the URL will change. So once you have the view you like just bookmark it for later.

Winter Temperatures and Weather For Much Of The U.S.

Arctic air with frigid temperatures and dangerous wind chills continue to blanket the Central third of the U.S., while beginning to expand into the Northwest. Two large winter storms are taking shape with an ice storm from Arkansas to Kentucky and snow for the Mid-Atlantic through early Friday, while a potent storm moves into the West for heavy snow and wintry precipitation in the Northwest.
