

## Storm Data and Unusual Weather Phenomena - July 2012

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
<b>ARKANSAS, Northwest</b>				
<b>(AR-Z001) BENTON, (AR-Z002) CARROLL, (AR-Z010) WASHINGTON, (AR-Z011) MADISON, (AR-Z019) CRAWFORD, (AR-Z020) FRANKLIN, (AR-Z029) SEBASTIAN</b>				
	07/01/12 00:00 CST		0	Drought
	07/31/12 23:59 CST		0	
<p>Very hot temperatures combined with a lack of appreciable rainfall resulted in significantly worsening drought conditions across all of northwestern and west central Arkansas during the month of July. Much of the region received less than 50 percent of average precipitation for the month. By the end of the month, all of northwestern and west central Arkansas were considered to be in extreme drought (D3) with portions of Carroll and Madison Counties considered to be in exceptional drought (D4). The USDA declared all of northwest and west central Arkansas disaster areas due to the drought. Monetary damage estimates resulting from the drought were not available.</p>				
<b>(AR-Z002) CARROLL</b>				
	07/04/12 12:00 CST		25K	Wildfire
	07/05/12 22:00 CST		0	
<p>Extreme temperatures and drought conditions promoted the spread of a wildfire that burned 250 acres, threatening 10 homes and 4 outbuildings. One outbuilding was destroyed but fire fighters from Carroll County, US Forestry, Arkansas Forestry, and Oklahoma Forestry successfully protected the other structures.</p>

## Storm Data and Unusual Weather Phenomena - July 2012

Location	Date/Time	Deaths & Injuries	Property & Crop Dmg	Event Type and Details
----------	-----------	-------------------	---------------------	------------------------

Extremely hot temperatures and high humidity combined to produce dangerously hot weather conditions across much of eastern Oklahoma. Daily heat index values climbed into the 105 to 111 degree range with little relief occurring at night as temperatures only fell into the upper 70s to mid 80s. The temperature at the Tulsa International Airport only fell to 88 degrees the mornings of the 30th and 31st, becoming the all-time warmest daily low temperatures on record for the area.

---

(OK-Z065) OKFUSKEE

07/29/12 12:00 CST	0.20M	Wildfire
07/29/12 23:30 CST	0	

Very hot temperatures, low relative humidity values, and ongoing drought conditions promoted the rapid spread of a wildfire that consumed 350 acres. The fire burned 8 outbuildings and threatened 7 homes before it was controlled.
