Storm Data and Unusual Weather Phenomena

October 2003

Location	Date	Time Local/ Standard	Path Length (Miles)	Path Width (Yards)	Number of Persons		Estimated Damage		Character of Storm
					Killed	Injured	Property	Crops	

ARKANSAS, Northwest

Benton County

Gentry	15	2230CST			0	0	25K	Thunderstorm Wind (EG61)
---------------	-----------	----------------	--	--	----------	----------	------------	---------------------------------

Thunderstorm winds estimated in excess of 70 miles an hour ripped off part of the roof of a church and severely damaged a barn.

OKLAHOMA, Eastern

Creek County

8 S Kellyville	09	0600CST 0700CST			0	0		Flash Flood
-----------------------	-----------	----------------------------	--	--	----------	----------	--	--------------------

Heavy thunderstorm rains in excess of three inches caused water from a stream to overflow a road. The water apparently caused two cars to be swept off the road and into a ditch.

OKZ064

Creek								
	09	2000CST			0	0		Flood
	10	0500CST						

Polecat Creek near Sapulpa rose above its flood stage of 21 feet during the afternoon of October 9 after heavy rain in excess of 3 inches fell the night before. The river crested at 22.4 feet that evening before falling below its flood stage during the pre-dawn hours of the 10th.
