An isolated severe thunderstorm developed over the city of Tulsa during the afternoon of June 4th. Strong thunderstorm winds downed trees, tree limbs, power lines, and signs at several locations throughout the northern and western parts of the city of Tulsa. Dime to quarter size hail also fell across the northern and western parts of the city. The thunderstorm also produced very heavy rainfall which resulted in flash flooding in west Tulsa. 8 cars were stranded in high water at 3rd Street and 25th West Avenue, and 2 cars were stranded in high water at Interstate 244 and Peoria Avenue. Street flooding also occurred at 41st Street North and Yale Avenue and on Charles Page Boulevard between 61st West Avenue and 49th West Avenue.

Severe thunderstorms moved across eastern Oklahoma during the evening of June 5th into the early morning of June 6th. The storms produced damaging winds at many locations, but the only occurrence of large hail was 1 mile south of Catoosa, where dime size hail fell. Several outbuildings were blown over by 60 mile an hour winds 3 miles southwest of Webbers Falls, and an outbuilding was overturned and several large tree limbs were broken off by 60 mile an hour winds near Quinton. Numerous trees were downed by 60 to 70 mile an hour winds near Enterprise, and a tree was downed by 60 mile an hour winds just west of downtown Tulsa. Trees were downed across State Highway 66 3 miles southwest of Bristow and across a county road in Coweta. Strong thunderstorm winds downed trees near 66th Street South and U.S. Highway 169 in the city of Tulsa, and large limbs were downed by 60 to 70 mile an hour winds 3 miles east of Canadian. Numerous tree limbs were downed at Mounds, at Okfuskee, and 5 miles east of Mounds at Liberty Mounds. Thunderstorm winds gusted to 80 miles an hour 8 miles northeast of Eufaula and to 70 miles an hour at Collinsville. Thunderstorm winds gusted to 60 to 70 miles an hour at Hectorville. Winds gusted to 60 miles an hour at several other locations throughout eastern Oklahoma.

Severe thunderstorms moved across eastern Oklahoma during the early morning of June 9th. Large hail and damaging winds accompanied the storms, with widespread wind damage in Muskogee and Haskell Counties. Numerous trees, tree limbs, and signs were downed throughout these counties, and a carport was damaged 2 miles west of Stigler in Haskell County. 3 outbuildings were destroyed and roof damage occurred at Stigler, and roof damage also occurred at Warner in Muskogee County. Damage to power lines occurred at Tamaha in Haskell County. Wind gusts as high as 100 miles an hour occurred at Camp Gruber in Muskogee County near Braggs, and winds up to 80 miles an hour occurred at Stigler in Haskell County. Strong thunderstorm winds also downed trees at Porter and at 66th Street South and U.S. Highway 169 in the city of Tulsa. Trees and large limbs were blown down at Sequoyah State Park 8 miles east of Wagoner. Thunderstorm winds gusted to 70 miles an hour near Checotah and to 60 to 70 miles an hour 10 miles west of Ramona and just west of Ramona. Winds gusted to 60 miles an hour at Chelsea, near Inola, and at Colcord. Golfball size hail fell at Keefeton in Muskogee County, and nickel size hail fell at Porter in Wagoner County. Dime size hail fell at several locations throughout northeast Oklahoma.
